ALISHBA IFTIKHAR

Full Stack Web Developer • Laravel • PHP • MySQL • JavaScript

Karachi, Pakistan | 03191334258 | alishbaifftikhar547@gmail.com

PROFESSIONAL SUMMARY

Motivated Computer Science student and Aptech ADSE trainee with hands-on experience building full-stack web applications using Laravel, PHP, MySQL, and modern frontend technologies. Delivered a team-built Healthcare Management System featuring authentication, patient management, doctor dashboards, and appointment booking. Quick learner with a strong grasp of MVC architecture, REST APIs, and version control — eager to contribute in a professional internship or junior developer role.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, jQuery, Bootstrap, Tailwind CSS, Angular

Backend: PHP, Laravel, MySQL, SQL

Programming: C#, ASP.NET, TypeScript

Design & CMS: Figma, WordPress

Version Control: Git, GitHub

PROJECTS

MarketLink

Tech Stack: *Laravel 12, PHP 8.2+, MySQL, Blade, Tailwind CSS, Alpine.js, Vite, Leaflet, OpenStreetMap, Chart.js, Laravel Authentication, Email OTP, Google OAuth, Laravel Socialite, SMTP, PHPUnit*

A farmers' marketplace platform connecting farmers and customers through weekly stock listings, produce browsing, pre-orders, and pickup-slot selection. Customers pay in person; online payments and delivery are not provided.
GitHub: github.com/aalishbaifftikhar/Marketlink

LUXE

Tech Stack: *HTML5, CSS3, JavaScript, Cloudflare Pages*

A premium, women-only fashion e-commerce frontend featuring editorial visuals, curated shopping categories, product cards, wishlist interactions, and a shopping bag interface.
Live: luxe-dkt.pages.dev | GitHub: github.com/aalishbaifftikhar/LUXE

Healthcare Management System

Tech Stack: *Laravel, PHP, MySQL, Bootstrap, Tailwind CSS, JavaScript*

Built a full-stack web app with secure authentication, patient records management, and doctor dashboards. Implemented an appointment booking system using MVC architecture and a normalized MySQL schema. Collaborated in a team using Git/GitHub for version control and coordinated feature branches.
GitHub: github.com/aalishbaifftikhar/HealthCare-Management

AutoWorld

Tech Stack: *HTML5, CSS3, JavaScript, GitHub Pages*

Designed and developed a fully responsive frontend web application showcasing modern UI/UX principles. Applied semantic HTML5, CSS3 animations, and interactive vanilla JavaScript components. Deployed live on GitHub Pages.
